

BHI Health, Safety, Environment & Security

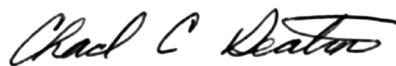

Policy Statement

The Baker Hughes Incorporated policy is to conduct business in a manner that protects people, assets, intellectual property and the environment. This commitment is facilitated through Management Systems for Health, Safety, Environment and Security which promote:

- Line management and employee accountability, commitment and individual contribution.
- Measurable goals and plans for continual improvement aimed at zero incidents, conservation of energy and resources, and the prevention of pollution.
- Integration of Health, Safety, Environment & Security matters into all business activities.
- Provision of training, controls and protective measures based on sound assessment of health, safety and security hazards and environmental impacts.
- Working with clients, regulators, contractors, suppliers and others to improve overall performance.
- Compliance with applicable legislation, regulations and industry standards.
- A culture where Stop Work Authority is valued as a proactive process.
- Audit and review of systems and communication of performance.
- Understanding of crisis alert levels, response plans and the crisis management process.
- Allocation of appropriate resources to implement this Policy.
- Identification and effective management of security risk.
- Protection of all Baker Hughes Incorporated intellectual property.

Baker Hughes Incorporated is a responsible corporate citizen committed to the protection of people, the environment and company resources while supplying products and services in a sustainable manner. This commitment adds value to employees, customers, shareholders and communities.

This Policy is made available to employees, clients, contractors, suppliers and the public.
