Global Customer Solutions Centers

Our Korean Customer Solutions Centers

- 365 square meters
- 3 industrial X-ray 3D CT systems
- 5 engineering experts available
- Location: Pangyo Global R&D Center in Seongnam, South Korea
- Committed to continuous innovation and collaboration

2D and 3D X-ray Inspection: Korea
Providing Radiography Expertise, Access, and Innovation

X-Ray Inspection Industries and Applications

Aviation / Defense
- Blades and vanes
- Structural components
- Advanced materials – Composites
- Additive Manufacturing

Battery
- Electrodes
- Alignment
- Welds
- Particles, crack
- Cell/Module/Pack

Automotive
- Batteries
- Electric motors
- Engine blocks
- Safety critical components

Electronics
- Wearables
- Semiconductors
- Circuit boards / PCBAs

Institutions / R&D
- Engineering
- Biology
- Materials science

The Bottom Line
Education, access to radiography technology and inspection services mitigate quality, safety, and financial risks.

Challenges We Solve
World Class Inspection On Demand via Expertise, Access and Innovation

- Need X-ray expertise / guidance?
- Want access to the latest industrial X-ray technology?
- Help with application development?
- Require scan of a large or unique part?
- Short on inspection capacity?
- Have a recent failure event?
- Need world-class scan image quality?
- Require classroom or on-site training?
- Want to add a modality or improve your level?
- Support for qualification testing?
- Need collaboration with government institutes?
- Need a demonstration?
