

# Baker Hughes In-Booth Presentations

---

MONDAY, 6 MAY

- 
- |        |   |
|--------|---|
| 10:15a | <b>Automated tubular running services:</b><br>Making faster, smarter, cleaner connections   |
| 10:45a | <b>Geothermal solutions:</b><br>Unlocking earth's energy with an innovative approach  |
| 11:15a | <b>Acoustic-set liner hangers:</b><br>Using acoustics for on-demand downhole actuation and real-time data transmission  |
| 11:45a | <b>Advanced reservoir mapping:</b><br>Capturing true reservoir understanding at a seismic scale   |
| 1:15p  | <b>NMBL™ modular LNG solutions for offshore and coastal applications:</b><br>Providing a fast start, minimizing risk, scaling it up and producing low carbon energy efficiently |
| 1:45p  | <b>On-Demand Solutions:</b><br>Energizing partner growth  |
| 2:15p  | <b>The power of integration:</b><br>Maximizing value from Mature fields   |
| 2:45p  | <b>engageSubsea:</b><br>Driving operational excellence and asset optimization with a digital ecosystem  |
| 3:15p  | <b>Production automation:</b><br>Enabling automated model management and field-wide optimization  |
| 3:45p  | <b>Integrity management solutions:</b><br>Ensuring the safety and reliability of offshore flexible pipe   |
| 4:15p  | <b>ESP installations:</b><br>Improving efficiency and safety  |

# Baker Hughes In-Booth Presentations

---

TUESDAY, 7 MAY

- 
- 9:45a      **The power of integration:**  
Maximizing value from Mature fields
- 
- 10:15a     **engageSubsea:**  
Driving operational excellence and asset optimization with a digital ecosystem
- 
- 10:45a     **Production automation:**  
Enabling automated model management and field-wide optimization
- 
- 11:15a     **Digital drilling:**  
Reducing well construction costs on deepwater exploration
- 
- 11:45a     **ESP installations:**  
Improving efficiency and safety
- 
- 12:15p     **LUNCH AND LEARN:**  
From Crisis to Opportunity - Bridging the Talent Gap
- 
- 1:15p       **Integrity management solutions:**  
Ensuring the safety and reliability of offshore flexible pipe
- 
- 1:45p       **Geothermal solutions:**  
Unlocking earth's energy with an innovative approach
- 
- 2:15p       **Automated tubular running services:**  
Making faster, smarter, cleaner connections
- 
- 2:45p       **Acoustic-set liner hangers:**  
Using acoustics for on-demand downhole actuation and real-time data transmission
- 
- 3:15p       **Advanced reservoir mapping:**  
Capturing true reservoir understanding at a seismic scale
- 
- 3:45p       **Decarbonizing offshore:**  
Introducing turbomachinery field electrification
- 
- 4:15p       **On-Demand Solutions:**  
Energizing partner growth

# Baker Hughes In-Booth Presentations

---

WEDNESDAY, 8 MAY

- 
- 9:45a **CCUS infrastructure deployment:**  
Determining value and opportunities of an integrated approach
- 
- 10:15a **ESP installations:**  
Improving efficiency and safety
- 
- 10:45a **Integrity management solutions:**  
Ensuring the safety and reliability of offshore flexible pipe
- 
- 11:15a **The power of integration:**  
Maximizing value from Mature fields
- 
- 11:45a **engageSubsea:**  
Driving operational excellence and asset optimization with a digital ecosystem
- 
- 12:15p **LUNCH AND LEARN:**  
Diversity, Equity and Inclusion
- 
- 1:15p **On-Demand Solutions:**  
Energizing partner growth
- 
- 1:45p **Production automation:**  
Enabling automated model management and field-wide optimization
- 
- 2:15p **Digital drilling:**  
Reducing well construction costs on deepwater exploration
- 
- 2:45p **Geothermal solutions:**  
Unlocking earth's energy with an innovative approach
- 
- 3:15p **Acoustic-set liner hangers:**  
Using acoustics for on-demand downhole actuation and real-time data transmission
- 
- 3:45p **Advanced reservoir mapping:**  
Capturing true reservoir understanding at a seismic scale
- 
- 4:15p **Automated tubular running services:**  
Making faster, smarter, cleaner connections

# Baker Hughes In-Booth Presentations

---

THURSDAY, 9 MAY

9:45a      **Digital drilling:**  
Reducing well construction costs on deepwater exploration

---

10:15a      **Acoustic-set liner hangers:**  
Using acoustics for on-demand downhole actuation and real-time data transmission

---

10:45a      **Advanced reservoir mapping:**  
Capturing true reservoir understanding at a seismic scale

---

11:15a      **Mobile and truck mounted power generation:**  
Producing reliable and flexible power solutions
